

# Ghost Notes

R L R L R L R L

Start with this pattern. Make sure it is smooth and even.

R L R L R L R L

Move your left hand down to the snare drum and play the same pattern.

R L R L R L R L

Now focus on the LH and play every note very softly. Keep your RH at the same volume as before.

The two most difficult notes to get accurate are: 1) Before the actual note  
2) After the actual note

Before:

After:

Now try using 16th notes. Remember to start these slowly ensuring all notes are in the correct place!

Before:

After:

Finally, let's look at grooves that combine both:
